Ever wonder what those “cheap” wines taste like and if any are any good? At this event, we will have a blind tasting of wines all under \$7 a bottle. Please bring a bottle of red or white wine, which is less than \$7 a bottle, that you already know is good or you want to test. Also bring something simple to go with it such as fruit or cheese and a wine glass if you don't like plastic.

All bottles will be opened and placed in unlabelled sacks. Everyone will have a chance to sample each wine and report their evaluation. Finally, we will have a grand tabulation to determine which wine is most favored which is the least. It should be fun and most of all informative (and might save you some money).

***RSVP (required) by e-mail or by phone at 831 419 1355
anytime before September 25th***

This event is free for members and non-members, but no empty hands please.
